Tedo Gzirishvili has tended to bees since 1985 a craft passed down through generations of the Gzirishvili family. From the untouched mountains and meadows of Sagarejo, his organic honey carries the purest whisper of Georgian nature.

In 2015, Tedo founded Tedo's Marani, where his passion for winemaking took shape alongside his lifelong devotion to beekeeping. As his sparkling wines evolved, so did a new vision: to transform his treasured honey into an elegant, effervescent creation.
